Note of Appreciation

Canada owes the success of its statistical system to a long-standing cooperation involving Statistics Canada, the citizens of Canada, its businesses, governments and other institutions. Accurate and timely statistical information could not be produced without their continued cooperation and goodwill.

Note de reconnaissance

Le succès du système statistique du Canada repose sur un partenariat bien établi entre Statistique Canada et la population, les entreprises, les administrations canadiennes et les autres organismes. Sans cette collaboration et cette bonne volonté, il serait impossible de produire des statistiques précises et actuelles.

Data in Many Forms . . .

Statistics Canada disseminates data in a variety of forms. In addition to publications, both standard and special tabulations are offered. Data are available on CD, diskette, computer print-out, microfiche and microfilm, and magnetic tape. Maps and other geographic reference materials are available for some types of data. Direct online access to aggregated information is possible through CANSIM, Statistics Canada's machine-readable database and retrieval system.

Computer and Electronic Dissemination

Computer listings are available for selected corporations by country of control, by Canadian standard industrial classification for companies and by province of residence of the head office. These listings are based upon the most recent ownership information. There is a charge based upon the number of enterprises requested.

The ICO is also available on CD-ROM. The CD-ROM is published quarterly and includes information up to the first month of that quarter. It uses powerful search software that allows users to find the corporations that interest them within a few minutes. The software can identify corporations by: province of residence of the corporations's head office; country of residence of the entity that ultimately controls the corporations; standard industrial classification code; and corporate name. Once identified, the selected enterprises can be displayed on the computer screen, printed out, or saved in an electronic form suitable for processing by your favourite software packages.

Computer listings can be obtained by contacting:

Diffusion informatique et électronique

Des listes informatiques sur les sociétés sont disponibles par pays de contrôle, par classification canadienne type des industries pour compagnies et entreprises et par province de résidence du siège social. Ces listes sont basées sur les données d'appartenance les plus récentes. Il y a des frais et ceux-ci dependent du nombre d'entreprise demandée.

Le LPS est aussi disponible sur CD-ROM. Le CD-ROM est publié trimestriellement et contient les données recueillies jusqu'au premier mois du trimestre. Le système utilise un puissant logiciel qui permet à l'utilisateur de trouver en quelques minutes, les sociétés auxquelles il est intéressé. Le logiciel peut identifier les sociétés par province de résidence du siège social de la société, par le pays de résidence de la société qui a le contrôle ultime, par classification canadienne type des industries et par le nom de la société. Après sélection, les entreprises visées peuvent être vues sur écran, imprimées ou placées dans un fichier électronique de façon a être traitées par les logiciels de votre choix.

Introduction

This latest **Inter-Corporate Ownership (ICO)** publication is a reliable index of who owns and/or controls whom in Canada. It is intended to serve as an essential reference tool for corporate executives, bankers, financiers, marketing managers, investors, researchers and the general public, all of whom desire the latest detailed information on the corporate structure of Canadian society.

The ownership (voting equity) information contained in this directory is primarily based upon non-confidential returns filed by Canadian corporations under the Corporations and Labour Unions Returns Act (CALURA) for a fiscal period ending sometime during 1995. It has been supplemented from a broad range of national and international data sources for major changes in corporate ownership which occurred prior to **November 10, 1995.** In addition, using such international publications as **Moody's** and **Who Owns Whom**, information on ultimate foreign parent corporations has been obtained. In many cases, this research has resulted in expanded enterprise structures, spanning several countries and providing insights into the organization of multi-national enterprises operating in Canada.

Wherever possible, researchers have analyzed any options, insider holdings, convertible shares or interlocking directorates which could affect the control of a corporation. In a number of cases, reported nominees have been replaced by true owners and information on certain family controlled corporations is included.

The ICO is divided into two main sections; a Corporate Ownership Section and an Index. The Corporate Ownership Section shows the portion of voting rights of a corporation owned or held by another corporate body or group of related individuals. All holdings of an enterprise are shown in one location, and they are presented in an easy-to-read tiered fashion with each successive layer of held corporations being indented.

The order in which enterprise groups are presented in this publication is based upon the number of corporations contained in such a group. Within each enterprise group, presentation is by size according to the number of corporations.

Introduction

Cette dernière version de la publication **Liens de parenté entre sociétés** indique qui possède ou contrôle quelles sociétés au Canada. Cet ouvrage devrait s'avérer essentiel pour les directeurs de sociétés, les banquiers, les financiers, les responsables de mise en marché, les investisseurs, les chercheurs et le grand public, tous ceux qui désirent obtenir des renseignements détaillés sur la structure des sociétés au Canada.

Les renseignements de propriété (actions ayant le droit de vote) contenus dans le présent document sont principalement basés sur des déclarations non confidentielles faites par les sociétés canadiennes en vertu de la Loi sur les déclarations des personnes morales et des syndicats (CALURA) pour une période se terminant durant l'année 1995. On s'est également servi de nombreuses autres sources nationales et internationales pour obtenir des renseignements sur les changements majeurs d'appartenance des sociétés qui ont eu lieu avant le **10 novembre 1995.** Ainsi, on s'est servi de publications internationales comme **Moody's** et **Who Owns Whom** pour obtenir des renseignements sur les sociétés étrangères qui étaient les propriétaires ultimes. Dans bien des cas, cette recherche a fait ressortir des structures plus vastes, s'étendant dans de nombreux pays et a éclairé sous un angle nouveau l'organisation des multinationales en activité au Canada.

Dans la mesure du possible, nos chercheurs ont effectué des recherches afin de trouver les options, les parts d'unités, les actions convertibles et les conseils d'administration liés susceptibles d'influencer le contrôle d'une société. En maintes occasions, ils ont remplacé les propriétaires figurant sur les registres par les propriétaires véritables. Enfin, ils ont trouvé des renseignements sur certaines sociétés familiales.

Le présent document est divisé en deux parties principales: la première porte sur les liens de parenté entre sociétés et la deuxième est un index. La première partie donne la proportion des droits de vote d'une société ou par un groupe de personnes apparentés, ou leur appartenant. Tous les avoirs d'une entreprise sont présentés au même endroit, par échelons afin d'en faciliter la consultation. Chaque couche successive de sociétés détenues est mise en retrait par rapport aux autres.

L'ordre des renseignements présentés dans cet ouvrage est basée sur le nombre de sociétés que renferme un groupe d'entreprises. À l'intérieur de chaque groupe d'entreprises la présentation est basée sur le nombre de sociétés dans l'entreprise.

A country of control has been ascribed to most corporations. Each active Canadian corporation is also given a Standard Industrial Classification for Companies (SICC), and the province of its head office is noted. This presents a picture of enterprise activity in terms of horizontal and vertical integration, conglomeration and multi-national participation.

The index includes all foreign-controlled corporations (in boldface print), even those without inter-corporate ownership. It also includes multiple references for corporations that appear on several pages.

On attribue un pays de contrôle à la plupart des sociétés. On attribue aussi à chaque société canadienne en activité un code CTIC (Classification type des industries pour compagnies) et on indique la province où est établi le siège social. Cela donne une image du degré d'intégration horizontale et verticale des entreprises, de la présence de conglomérats et de la participation multinationale.

L'index comprend toutes les sociétés sous contrôle étranger en caractères gras, y compris celles qui n'ont aucun lien de parenté. Il indique plusieurs renvois lorsqu'une société paraît à plusieurs pages.

Special Note

It is possible that information supplied to the CALURA Administration under the Act, or obtained from research sources, could be in error. Any inaccuracies brought to the attention of the authors will be corrected in a subsequent edition.

Note particulière

Il se peut que certains renseignements fournis à l'administration de CALURA en vertu de la Loi, ou obtenus au cours des recherches, soient erronés. Toute inexactitude signalée aux auteurs sera corrigée dans une prochaine édition.

HOW TO USE THE PUBLICATION

The **Index Section** is an alphabetical listing of all the corporations and related groups contained in the Corporate Ownership Section. All foreign-controlled corporations in Canada are included and are shown in bold-face print.

In sorting names for the index most articles, conjunctions and prepositions in both english and french, as well as punctuation, are ignored. Specifically, note that **D'SILVA MULTICORP LTD.** appears under **SILVA.** In addition the words **COMPAGNIE, CORPORATION, LIMITÉE** and **LIMITED** are shortened and are found under **CIE, CORP, LTÉE** and **LTD.**, respectively. Names starting with a number appear at the beginning of the index.

If a corporation appears on more than one page, multiple listings for that corporation are provided. All page numbers are followed by either the letter "A" or "B", indicating the left-hand or right-hand column, respectively, of the noted page.

For further information, refer to the "Description" preceding the Index.

The **Corporate Ownership Section** shows the names of all holding and held companies, and the respective ownership percentages, in a tiered format, with each succeeding level indented.

For a specific corporation, each line in the Corporate Ownership Section shows, (The column headings are shown in brackets):

its country of control (CTL),

the Standard Industrial Classification for Companies (SICC),

the country of residence or province of its head office (RES),

the percentage of voting rights held (%) by the immediately preceding upper-level corporation (with a level number decreased by one),

a comment (C),

the level number (LEV), and

the name (CORPORATION NAME).

UTILISATION DE LA PUBLICATION

L'**index** est une liste alphabétique de toutes les sociétés et de tous les groupes apparentés qui figurent dans la partie sur les liens de parenté entre sociétés. Toutes les sociétés sous contrôle étranger qui font affaire au Canada y figurent en caractère gras.

Dans l'ordre des noms, nous n'avons pas tenu compte de la plupart des articles, conjonctions et prépositions, tant en français qu'en anglais, ni de la ponctuation. Par exemple, **D'SILVA MULTICORP LTD.** figure sous **SILVA.** Les mots **COMPAGNIE, CORPORATION, LIMITÉE** et **LIMITED** sont abrégés respectivement par **CIE, CORP, LTÉE** et **LTD.** Les chiffres précèdent les lettres dans l'ordre alphabétique.

Si une société figure à plus d'une page, l'index donne plusieurs renvois. Tous les numéros de page sont suivis de la lettre "A" ou "B", qui représentent respectivement la colonne de gauche et la colonne de droite de la page mentionnée.

Pour plus de renseignements, consultez la "Description" qui précède l'index.

La **partie sur les liens de parenté entre sociétés** donne le nom de toutes les sociétés actionnaires ou détenues et les pourcentages correspondants des droits de vote détenus. Les sociétés sont présentées par échelons, et chaque échelon suivant est mis en retrait.

Chaque ligne de cette partie contient les renseignements suivants pour chaque société donnée (les en-têtes des colonnes sont entre parenthèses):

le pays de contrôle (CTL),

la classification type des industries pour compagnies (CTIC),

le pays de résidence ou la province où est situé le siège social (RES),

le pourcentage des droits de vote détenus (%) par la société qui figure à l'échelon immédiatement au-dessus (dont le numéro d'échelon est inférieur d'une unité).

un commentaire (C),

le niveau (NIV), et

le nom (NOM DE LA SOCIÉTÉ).

For each enterprise, the name of the parent corporation is shown in boldface print, and has a level number (LEV) of "01". If there are any other corporations that hold an investment in the enterprise parent, they are identified as investors (INV:) and are listed preceding the "01" line. Next all the ownership relationships to other corporations are presented in a tiered format – each successive layer of owned corporations is indented further, and has a level number increased by one. Some of these owned corporations may be members of another enterprise, and they are identified by a "D" in the comment column. Please see Statistical Notes and Definitions for an explanation of control and enterprise.

In this section, if the country of residence is Canada, then a specific province is shown. Also, branches in Canada of foreign legal entities are treated the same as Canadian legal entities and are assigned the province of residence of the branch operation (RES).

The country and province mnemonics, SICC codes, comments, and other information are provided at the beginning of each section.

Le nom de la société mère de chaque entreprise figure en caractères gras et possède le niveau (NIV) "01". Si d'autres sociétés détiennent des actions de la société mère, on les retrouve sur des lignes distinctes qui précèdent la ligne "01", et on les identifie comme inventisseurs (INV:). Ensuite, tous les liens de parenté avec d'autres sociétés sont présentés par échelon et chaque couche successive de sociétés détenues est mise en retrait et possède un numéro d'échelon augmenté d'une unité. Certaines de ces sociétés détenues peuvent faire partie d'une autre entreprise; elles sont alors identifiées par un "D" dans la colonne des commentaires. Veuillez consulter les Notes statistiques et définitions pour la définition de contrôle et d'entreprise.

On indique la province lorsque le pays de résidence est le Canada. Également, les succursales au Canada d'entreprises étrangères sont considérées comme des sociétés canadiennes et on indique, dans la colonne de pays de résidence, leur province de résidence (RES).

Les abréviations mnémoniques des pays et des provinces, les codes CTIC, les commentaires et les autres renseignements figurent au début de chaque section.

STATISTICAL NOTES AND DEFINITIONS

NOTES STATISTIQUES ET DÉFINITIONS

STATISTICAL NOTES AND DEFINITIONS

Coverage and Research

Corporations included in this report are principally those that are required to file a schedule of ownership information under the Corporations and Labour Unions Returns Act (CALURA). The Act, as amended in July 1981, applies to every Corporation that carries on business in Canada or that is incorporated under a law of Canada or a Province, whose gross revenue for the reporting period exceeded $15 million, or whose assets exceeded $10 million. In calculating these amounts each corporation must include the assets and sales of its affiliates as defined in the Act. In addition, corporations with assets and sales under these amounts but having long-term debt or equity owing directly or indirectly to non-residents exceeding a book value of $200,000 must also provide ownership information.

International financial and ownership publications have been researched to obtain true beneficial owners rather than nominees. In addition, the data derived solely from the CALURA returns has occasionally proved insufficient to bring related corporations in Canada together into one enterprise, because corporations are only required to report their first foreign parent. In many of these cases, the first foreign parent was traced back to an ultimate parent corporation. Sometimes this was one or two countries removed from the one reported. This research has resulted in a more accurate assignment of country of control to the entreprises and provided a better overview of multi-national enterprises.

Under the Act, corporations are not required to report the names of individuals owning shares or the names of corporations holding less than 10% of any share class. In a select number of cases, where such ownership was significant, revealed a larger enterprise structure or determined the control of a corporation, data on personal share holdings, or corporate holdings of less than 10%, was obtained and integrated with inter-corporate ownership information.

NOTES STATISTIQUES ET DEFINITIONS

Champ d'observation et recherche

Les sociétés étudiées dans le présent rapport sont surtout celles qui doivent présenter des renseignements sur leur appartenance en vertu de la Loi sur les déclarations des personnes morales et des syndicats (CALURA). La Loi, modifiée en juillet 1981, s'applique à toute société exerçant une entreprise au Canada ou constituée en vertu d'une loi du Canada ou d'une province dont le revenu brut pour la période de rapport excédait quinze millions de dollars, ou l'actif excédait dix millions de dollars. Dans ces montants, chaque société doit inclure les actifs et les ventes de ses filiales, conformément à la Loi. En outre, les sociétés ayant un actif et des ventes inférieures à ces montants mais dont les créances à long terme ou les actions détenues directement ou indirectement par des non-résidents excédaient une valeur comptable de $200,000 doivent aussi fournir des renseignements relatifs à leur propriété.

Nos chercheurs ont dépouillé les publications financières et les répertoires internationaux pour trouver les propriétaires véritables. En outre, les déclarations CALURA sont parfois insuffisantes pour regrouper en une seule entreprise des sociétés canadiennes ayant des liens de parenté, dans la mesure ou les sociétés sont tenues d'indiquer seulement leur société mère immédiate à l'étranger. Dans de nombreux cas, nous avons établi une liaison avec une société mère ultime dans un (ou deux) pays autre(s) que le pays de contrôle déclaré. Ces recherches nous permettent de déterminer avec plus d'exactitude le pays de contrôle des entreprises et donne une meilleur perspective des entreprises internationales.

Aux termes de la Loi, les sociétés ne sont pas tenues de déclarer le nom des particuliers ou des sociétés qui possèdent moins de 10% d'actions de n'importe quelle classe. Dans certains cas où l'appartenance a joué un rôle important, en révélant l'appartenance à une structure plus étendue d'entreprise ou en déterminant le contrôle d'une société, nous avons obtenu des données sur les actions détenues par des particuliers ou sur les avoirs de moins de 10% de sociétés et les avons intégrées aux renseignements sur les liens de parenté entre sociétés.

Corporate Control

Corporate control is the potential to affect the corporate strategic decision-making process of the board of directors of a corporation.

Direct control is exercised by a person, group or corporation if more than 50% of the voting equity of a corporation is held, directly or indirectly, other than by way of security only, by or for the benefit of that person, group or corporation.

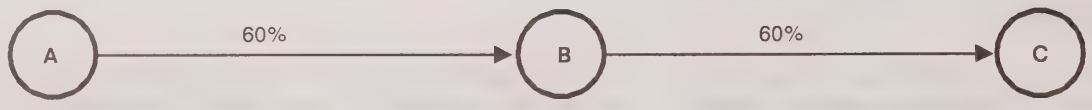
In the case of irrevocable options or the right to acquire shares, the calculation of the voting equity is made as if all options have been exercised. In these cases, direct control is assigned and is denoted in the text by the letter 'A' appearing in the comments column.

The following examples illustrate the concept of control of a corporation based on the majority ownership of its voting rights. Each lettered circle represents a corporation and an arrow indicates its ownership by another corporation.

In example a), corporation A owns 60% of corporation B's voting rights, and so A controls B. Similarly, corporation B controls C, and hence A controls C. The control of B by A is direct control. The control of C by A is indirect control.

Contrôle d'une Société

Le contrôle d'une société est le pouvoir d'avoir une incidence sur le processus de prise de décisions stratégiques par le conseil d'administration de cette société.

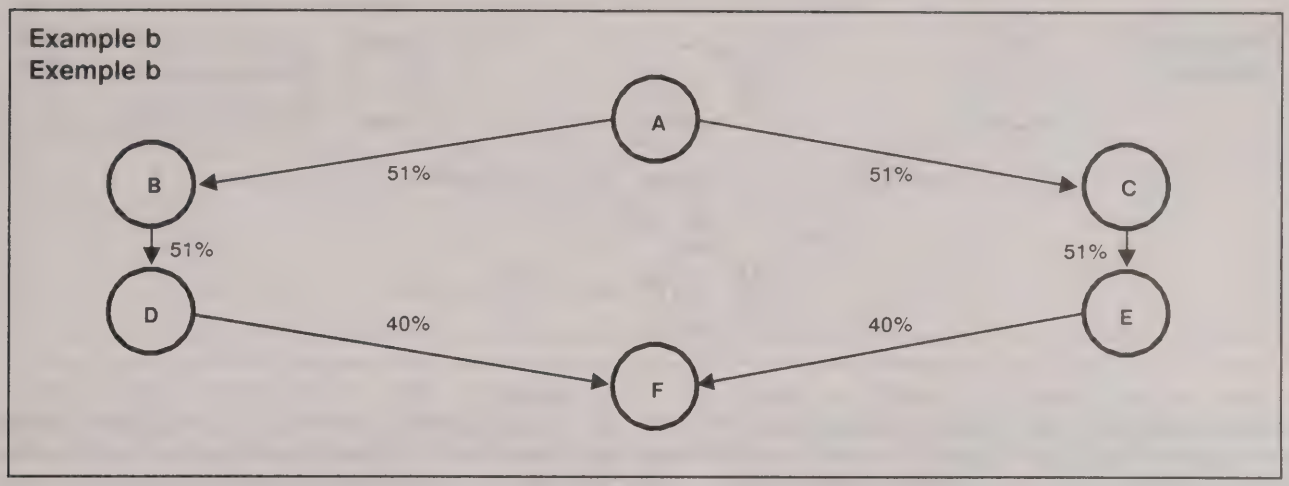


Une personne, un groupe ou une société exerce un contrôle direct si plus que 50% des actions ayant le droit de vote d'une société sont détenus, directement ou indirectement, autrement qu'à des fins de sécurité, par ou au bénéfice de cette personne, groupe ou société.

Lorsqu'il existe des options irrévocables ou des droits d'achat d'actions, on traite les actions ayant le droit de vote comme si ces options avaient été exercées. Dans ces cas, on assigne un contrôle direct et la légende 'A' figure comme commentaire.

Les exemples suivants illustrent la notion de contrôle d'une société fondée sur la possession majoritaire des droits de vote. Chaque lettre encerclée représente une société et l'appartenance à une autre entreprise est indiquée par une flèche.

Dans l'exemple a), la société A détient 60% des droits de vote de la société B, et par conséquent A contrôle B. De la même façon, la société B contrôle C et par conséquent, A contrôle C. Le contrôle de B par A est un contrôle direct, tandis que celui de C par A est un contrôle indirect.



Example a
Exemple a

In example b), A controls all other corporations. From the logic of the previous example A controls B and C directly and D and E indirectly. As the sum of the voting rights of F by D and E is 80%, A controls F. This is cumulative indirect control.

Dans l'exemple b), A contrôle toutes les autres sociétés. Selon le même principe que dans l'exemple précédent, A contrôle B et C directement et D et E indirectement. Comme la somme des droits de vote de F détenus par D et E est égale à 80%, A contrôle F. C'est ce que l'on appelle le contrôle indirect cumulatif.

Example b
Exemple b

Effective control of a corporation implies control of the corporation through methods other than ownership of the majority voting equity of the corporation. Effective control is referred to as assigned control in the Inter-Corporate Ownership database and publication. Such control is denoted in the text by the letter 'A' appearing in the comments column. An assessment of effective control may be based on any of the following rules:

If more than 50% of directors of a corporation, are also directors of a trust or an estate, or are also members of a related group, then the corporation is effectively controlled by that trust, estate or related group.

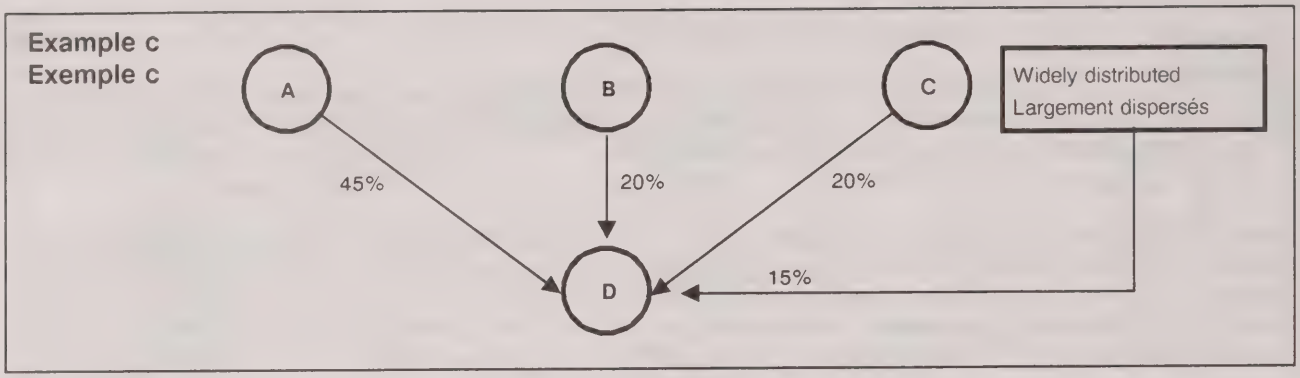
If more than 50% of the directors of a corporation, are also directors of another corporation, and if there is a significant voting ownership relationship between these corporations, then the corporation is effectively controlled by that other corporation.

If a corporation holds voting equity in another corporation which exceeds 33%, and if that block of equity is larger than the combined percentage of the next two largest blocks, then the corporation is effectively controlled by that corporation.

If control is acknowledged by a corporation, then the acknowledgement is sufficient to assign effective control.

The following example illustrates the concept of effective control based on a corporation owning over 33% of the voting equity of a corporation and this holding is greater than the combined percentage of the next two largest holdings.

Le contrôle effectif d'une société implique le contrôle d'une société par des méthodes autres que la propriété de la majorité des actions ayant le droit de vote. On appelle ce contrôle effectif "contrôle assigné" dans la base de donnée et la publication. Dans ce cas, la légende 'A' figure comme commentaire. On peut assigner un contrôle effectif à une société dans les case suivants:



Si plus que 50% des directeurs d'une société sont également directeurs d'une fiducie ou d'une succession, ou sont membres d'un groupe conjoint, la société est contrôlée effectivement par la fiducie, la succession ou le groupe conjoint.

Si plus que 50% des directeurs d'une société sont également directeur d'une autre société et s'il existe une relation importante de propriété des actions ayant le droit de vote entre les sociétés, la société est effectivement contrôlée par cette autre société.

Si une société détient plus de 33% des actions ayant le droit de vote d'une autre société, et si ce bloc d'actions est plus grand que le pourcentage combiné des deux plus grands blocs suivants, la société est effectivement contrôlée par cette autre société.

Si une société reconnaît qu'elle est contrôlée, cette déclaration est suffisante pour nous permettre d'assigner le contrôle.

L'exemple suivant illustre la notion de contrôle effectif si la société détient plus de 33% des actions ayant le droit de vote d'une corporation et si ce bloc d'actions est plus grand que le pourcentage combiné des deux plus grands blocs suivants.

A has been assigned control of corporation D since it owns the largest block of voting equity which is greater than the combined percentage holding of B and C.

Please note that there are numerous methods of control which are generally outside the scope of this publication. Franchise, marketing arrangements and sales contracts may be used to exercise effective control.

Finally, care should be taken in using the word "controlled". In many cases where control is said to exist, corporations may still function with considerable autonomy in their financial, marketing, or operational activities. The concept of corporate control should be viewed as a potential that exists and is exercised within the framework of a corporate industrial society with highly varied management practices.

On assigne à A le contrôle de la société D parce qu'elle détient le plus grand bloc d'actions de D et que ce bloc est plus grand que la somme des deux blocs d'actions détenus par les sociétés B et C.

Il faut noter qu'il existe de nombreuses formes de contrôle qui n'entrent pas dans le cadre de cette publication. Par exemple les contrats de vente et les accords de concession et de mise en marché peuvent servir à contrôler effectivement une corporation.

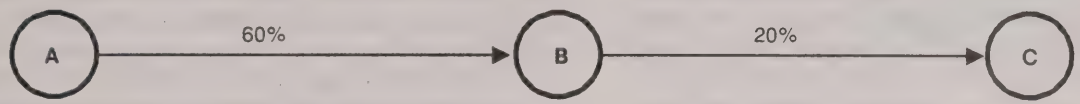
Finalement, il faut employer le terme "contrôle" avec prudence. Souvent, même lorsqu'il y a contrôle, les sociétés peuvent conserver une marge d'autonomie considérable en matière de finances, de mise en marché ou d'exploitation. Le contrôle représente avant tout un pouvoir potentiel, exercé dans le cadre de structures industrielles caractérisées par une grande variété de méthodes de gestion.

Enterprise

An enterprise is a group of corporations under common control. The controlling interest, referred to as the enterprise head, may be an individual, a related group, a corporation or a government. Controlled corporations are called subsidiaries. A multi-corporation enterprise contains one or more subsidiaries. A corporation that is not controlled by another corporation and that does not control another corporation is called a single-corporation enterprise.

The following examples illustrate these concepts.

In example d), A and B form a multi-corporation enterprise with enterprise head A. C is not controlled by A, and is therefore a single-corporation enterprise.



Entreprise

Une entreprise est un groupe de sociétés sous contrôle d'une seule société, que l'on appelle tête d'entreprise. Celle-ci peut être un individu, une société, un groupe ou un gouvernement. Les sociétés contrôlées sont appelées filiales. Une entreprise à sociétés multiples contient une ou plusieurs filiales. Une société qui n'est pas contrôlée par une autre et qui n'en contrôle pas d'autres est une entreprise à société unique.

L'exemple suivant illustre ces notions.

Dans l'exemple d), A et B forment une entreprise à sociétés multiples dont A est la tête. C n'est pas contrôlée par A et est une entreprise à société unique.

Example d
Exemple d

For each enterprise in the Corporate Ownership Section, all ownership emanating from that enterprise is shown including investments in other enterprises. Refering back to the preceding example, the enterprise parent would be shown as level "01", the 60% link to corporation B would be shown as level "02", and the 20% link to C would be shown as level "03" with a comment of "D" (unless control of C by A had been assigned for reasons other than voting rights, in which case the comment would be "A").

La partie du présent document sur les liens de parenté entre sociétés donne toutes les participations majoritaires d'une entreprise dans une autre, ainsi que ses autres participations. Ainsi, dans l'exemple précédent, l'entreprise mère figure à l'échelon "01", elle possède 60% des actions ayant un droit de vote de la société B, qui se trouve à l'échelon "02", et le lien de 20% avec la société C, à l'échelon "03", suivi du commentaire "D" (à moins que le contrôle de C n'ait été attribué à A en vertu d'autres critères que les droits de vote, auquel cas on aurait un "A").

Country of Control

Each corporation included in the ICO is assigned a "country of control". This is the basis for the analysis of the extent and impact of foreign control within the Canadian economy, as contained in the CALURA Part 1, Corporations, Annual Report to Parliament, catalogue 61-220.

Generally, a corporation is considered to be foreign-controlled if a majority of its voting rights are held in foreign countries, or are held by one or more Canadian corporations that are themselves foreign-controlled. In the case of a multi-corporation enterprise, it is the enterprise head (or parent) that is considered first and each subsidiary within the enterprise is assigned the same country of control as its enterprise parent (see example e). If the enterprise head is a Canadian-resident corporation, the country of control is ascribed to that country in which the majority of the voting rights are held by both individuals and corporations. In those cases where the holdings of over 50% of the voting rights are distributed among non-associated shareholders in two or more foreign countries, foreign-control is assigned to that foreign country with the largest block of voting equity. If the largest blocks are equal then the country of control is assigned using the order of precedence listed in Appendix A. (See example i). A parent

Pays de contrôle

On attribue un "pays de contrôle" à chaque société étudiée dans le présent document. Ce renseignement constitue le fondement de l'analyse de l'étendue et de l'incidence du contrôle étranger au sein de l'économie canadienne, que l'on retrouve dans "Loi sur les déclarations des personnes morales et des syndicats", Partie 1, Sociétés, rapport annuel déposé au Parlement, nº 61-220 au catalogue.

De manière générale, on dit qu'une société est sous contrôle étranger quand la majorité de ses droits de vote sont détenus à l'étranger ou appartiennent à une ou plusieurs sociétés canadiennes elles-mêmes sous contrôle étranger. Dans le cas des entreprises à sociétés multiples, on commence par établir le pays de contrôle de la tête d'entreprise ou de la société mère, que l'on attribue ensuite à chaque filiale de l'entreprise (voir l'exemple e). Si la tête d'entreprise est une société résidant au Canada, on attribue son contrôle au pays où la majorité des droits de vote est détenue par des particuliers ou des sociétés. Dans les cas où plus que 50% des droits de vote sont répartis entre des actionnaires indépendants résidant dans plus d'un pays étranger, on assigne le contrôle au pays étranger qui a le bloc le plus important d'actions ayant le droit de vote. Si les blocs les plus importants sont d'égale grandeur, on assigne le pays de contrôle en se basant sur l'ordre de préséance de l'Appendice A (Voir l'exemple i). Une société mère dont les droits de vote sont détenus également par une société sous contrôle étranger et une société sous contrôle canadien reçoit un code de

corporation whose voting rights are owned equally by a Canadian-controlled and a foreign-controlled corporation is given a foreign control code (see example g). If two foreign-controlled corporations own the largest and equal amounts of equity which is equal to or greater than 50% of the voting rights of the Canadian corporation, the country of control is assigned using the precedence listed in Appendix A (see example h). Note, a country of control designation of 'foreign unspecified' is reserved for tax haven countries listed in Appendix B.

Strict adherence to these conventions can lead to a company's reclassification as a result of relatively minor stock transactions when the non-resident ownership of the outstanding voting rights of the company is close to 50%. In order to avoid such swings, the country of control of an enterprise head is changed only when changes in ownership of the voting equity of the enterprise head are substantial or appear to alter the potential or effective control over the management of the company.

In most cases of foreign control, the country of control classification is based on tracing ownership links to the first parent corporation which is a resident of a foreign country. However, it is at times possible to determine that the first foreign parent itself, is in fact controlled by another foreign corporation which may reside in a different foreign country. In such instances control is assigned to the country of control of the ultimate parent.

The following examples illustrate the assignment of a country of control for a corporation. Each lettered circle represents a corporation and an arrow indicates its ownership by another corporation or individuals

(e.g., A $\xrightarrow{60\%}$ B indicates that corporation A owns 60% of corportion B's voting rights).

In example e), all corporations are assigned a United States control code.

In example f), corporations E and G are assigned Canadian control. All other corporations are assigned United Kingdom control.

In example g), corporation B is assigned Japanese control.

In example h), corporation C is assigned United States control.

In example i), corporation B is assigned West German control.

contrôle étranger (voir exemple g). Si deux sociétés sous contrôle étranger possèdent les blocs les plus importants et égaux d'actions qui sont au total égaux ou plus grands que 50% des droits de vote de la société canadienne, le pays de contrôle est assigné en utilisant la liste de préséance de l'Appendice A (voir exemple h). Il faut noter que la désignation "étranger non-déterminé" est réservée aux hâvres fiscaux énumérés en Appendice B.

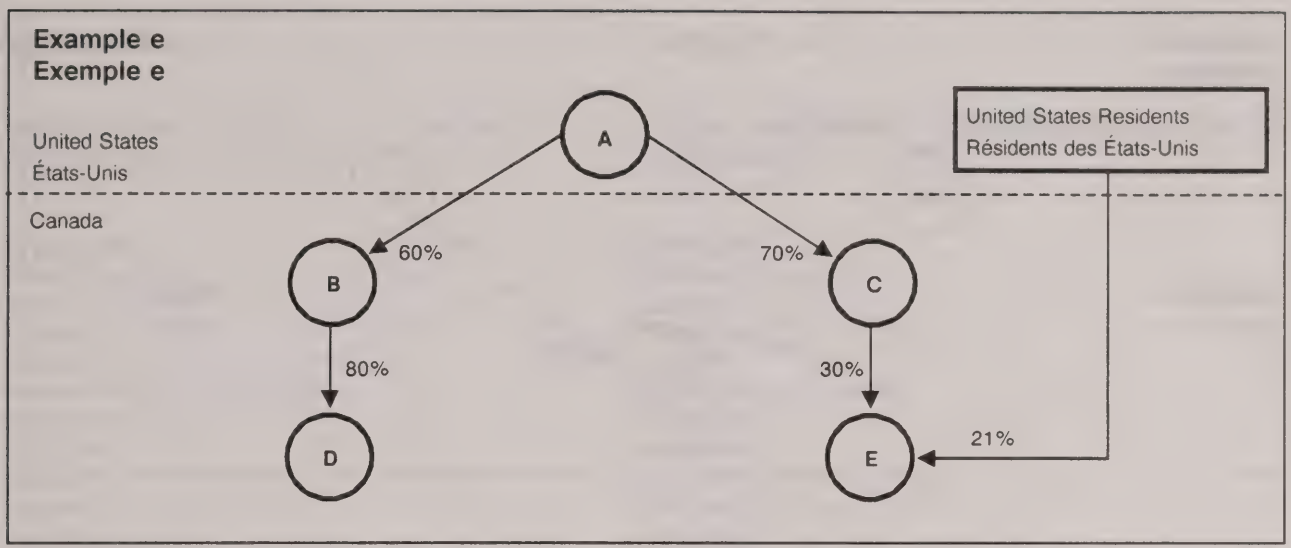
La stricte observation des conventions précédentes peut conduire au reclassement d'une société à la suite de petites transactions d'actions lorsque les droits de vote en circulation appartiennent à des non-résidents dans une proportion de près de 50%. Pour éviter cela on ne change le pays de contrôle d'une société mére que lorsque les changements de propriété des actions ayant le droit de vote de cette société mère sont importants ou semblent modifier la possibilité de contôler effectivement la gestion d'une société.

Dans la plupart des cas de contôle étranger, on détermine le pays de contrôle en remontant jusqu'à la première société mère qui réside dans un pays étranger. Cependant, on découvre parfois que la première société mère étrangère est elle-même contrôlée par une autre société d'un autre pays. On attribue alors le contrôle au pays de la société qui est propriétaire ultime.

Voici des exemples d'attribution de pays de contrôle à une société. Chaque lettre encerclée représente une société et l'appartenance à une autre entreprise ou à des particuliers est indiquée par une flèche

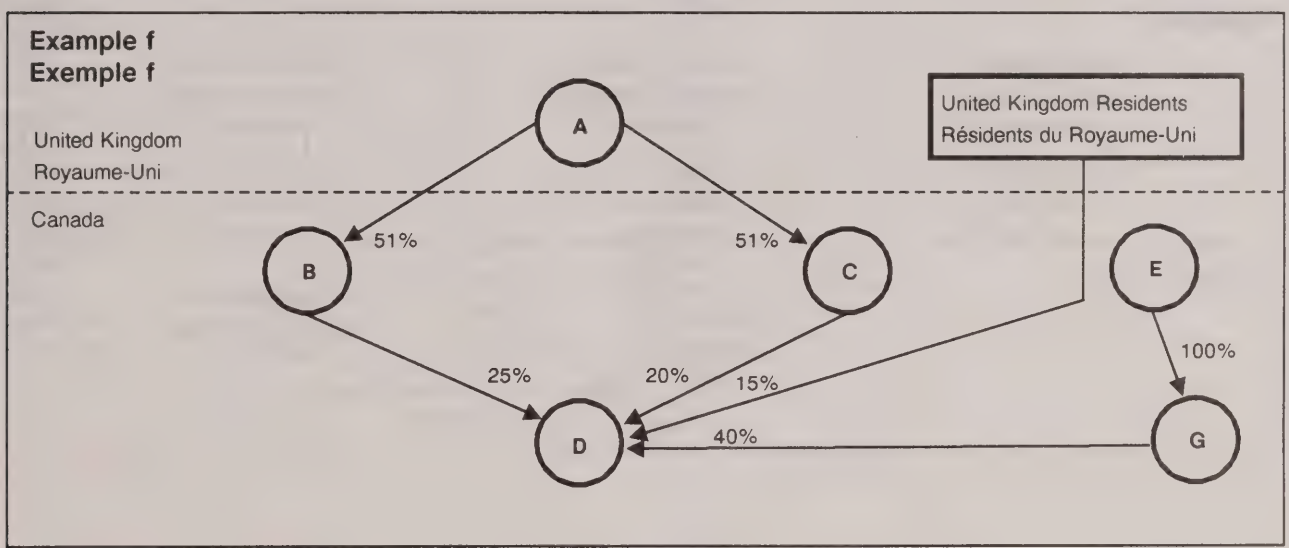
(par exemple, A $\xrightarrow{60\%}$ B signifie que la société A détient 60% des droits de vote de la société B).

Dans l'exemple e), on attribue à toutes les sociétés un contrôle des États-Unis.



Dans l'exemple f), les sociétés E et G sont sous contrôle canadien. Toutes les autres sont sous contrôle du Royaume-Uni.

Dans l'exemple g), la société B est sous contrôle du Japon.



Dans l'exemple h), on considère que la société C est sous contrôle des États-Unis.

Dans l'exemple i), on assigne un contrôle de l'Allemagne de l'Ouest à la corporation B.

Industrial Classification

The industrial classification of corporations is based on the 1980 Canadian Standard Industrial Classification for Companies and Enterprises (SIC-C).[1]

Standard classification systems are basic to co-ordinating the collection of data and integrating published statistics. The Standard Industrial Classification for company-based statistics was designed to improve the industry classification of financial statistics, such as corporation financial statistics, corporation profits, and CALURA data, including the classification of corporations and enterprises on the Inter-Corporate Ownership database. Traditionally, these statistics have been classified according to the Standard Industrial Classification (SIC-E) which is suited primarily for establishments. The 1980 version (Cat. No. 12-501) is the latest.

The classification system for financial statistics differs from that designed for establishment-based statistics in some fundamental respects. Most importantly, the unit capable of reporting financial statistics tends to be located at a higher level within a business organization than the basic operating unit - the establishment - and it tends to span more industrial activities than the establishment, which circumscribes as homogeneous a mix of industrial activities as possible. This has an important operational consequence. Establishment-based classifications do not recognize vertical integration of activities. Vertical integration, however, is specifically recognized by this new classification in order to better classify complex business entities. This has been accomplished by creating special classes to accommodate these entities.

In developing the SIC-C, the 1980 SIC-E four-digit classes were re-aligned to produce the new SIC-C four-digit subsegments, either through direct aggregation or by assignment of parts of classes to the newly created "combined" subsegments. The latter were designed specifically to account for the integrated operations of complex businesses, based on an analysis of the structure of business operations. Thus, while in the SIC-E only "specialized" classes exist, the SIC-C at its most detailed level, contains both "specialized" classes and classes for businesses with com-

Classification type des industries

La classification des sociétés par activité économique est fondée sur la classification canadienne type des industries pour compagnies et entreprises 1980 (CTIC).[1]

Les classifications normalisées jouent un rôle fondamental dans la coordination de la cueillette des données et dans l'intégration des statistiques publiées. La Classification Type des Industries pour les statistiques établies sur une base de compagnie, a été développée dans le but d'améliorer la classification industrielle des statistiques financières, tels les statistiques financières des sociétés, les profits des sociétés et les données produites sous l'autorité de CALURA y compris la classification des sociétés et des entreprises qui font parti de la base de données des liens de parenté entre sociétés. Traditionnellement, ces statistiques étaient classifiées selon la Classification Type des Industries (CTI-E) qui vise sur tout l'établissement. L'édition 1980 (Cat. 12-501) est la plus récente.

La classification pour les statistiques financières diffère de celle destinée aux statistiques d'établissement dans certains aspects fondamentaux. Point particulièrement important, l'unité capable de fournir les statistiques financières tend à être localisée à un palier supérieur de l'organisation de l'entreprise par rapport à l'unité opérationnelle de base - l'établissement - et tend aussi à recouper une plus grande diversité industrielle que l'établissement qui, lui, circonscrit un ensemble d'activités industrielles aussi homogène que possible. Ce fait a une conséquence opérationnelle importante. Les classifications fondées sur l'établissement ne rendent pas compte de l'intégration verticale des activité. L'intégration verticale est toutefois spécifiquement reconnue dans cette nouvelle classification en vue de mieux classer les entreprises aux réalités complexes. On y est parvenu en créant des classes spéciales pour accommoder de telles entités.

Le développement de la CTI-C s'est effectué par un réalignement des classes industrielles à quatre chiffres de la CTI-E de 1980 pour produire les sous-segments à quatre chiffres de la nouvelle CTI-C, soit par combinaison directe de classes entières, soit par combinaison de portions de classes aux sous-segments "combinés" nouvellement créés. Ces derniers sont destinés spécifiquement à rendre compte des opérations intégrées des entreprises complexes, le tout fondé sur une analyse des structures opérationnelles des entreprises. Ainsi, alors que dans la CTI-E on ne retrouve que des classes dites "spécialisées", la CTI-C elle, à son niveau le plus

bined activities (for example, subsequent 1051 - Petroleum Extracting, Refining and Distributing, Integrated Operations).

The detailed four-digit SIC-C classes are part of a hierarchical classification. However, the structure differs from the traditional sectoring of the economy along major activity lines (e.g. agriculture, fishing, manufacturing, transportation). Some of the newly created sectors, such as "Energy", can safely be assumed to be of general analytical interest; others are less obvious and may have to be modified as experience is gained in using these aggregations. It should also be noted that integrated classes sometimes encompass both companies with operations integrating a number of activities, and companies specializing in only one of these activities. A list of the industrial classification codes and their descriptions are presented on pages XXXVII.

détaillé, contient à la fois des classes spécialisées et des classes pour les entreprises qui présentent des activités combinées (par exemple, le Sous-segment 1051 - Extraction, raffinage et distribution du pétrole, opérations intégrées).

Les classes détaillées à quatre chiffres de la CTI-C sont organisées selon une classification hiérarchique. Par contre la structure de cette organisation diffère des secteurs traditionnels de l'économie exprimés pas les grandes catégories d'activité économique (ex. agriculture, pêche, activité manufacturière, transport). Certains des secteurs nouvellement constitués, tel l'Énergie, peuvent être vraisemblablement considérés comme d'intérêt général sur le plan analytique; d'autres sont des cas moins évidents et peuvent devoir subir certaines modifications suite à l'expérience acquise à leur utilisation. On devrait prendre aussi note de ce que les classes intégrées recoupent parfois à la fois les activités de compagnies aux opérations intégrées ainsi que l'activité des compagnies spécialisées dans l'une seulement des activités ainsi énumérées. Une liste des codes identifiant la classification type des industries et une brève description figurent à la page XXXVII.

CORPORATE OWNERSHIP

LIENS DE PARENTÉ ENTRE SOCIÉTÉS

LIST OF ABBREVIATIONS

CTL indicates the country of control

SICC indicates the Canadian Standard Industrial Classification for Companies and Enterprises

RES indicates the country of residence, or if known the province of the head office in Canada

% indicates the percentage of voting rights owned, usually in the current corporation by some preceding corporation (see LEV); except, however, for "INV:" corporations (see below), which hold the indicated portion of the enterprise parent

C indicates a comment regarding the type of ownership

LEV indicates the level of ownership; enterprise parents are shown as level "01", directly held corporations are level "02", and indirectly held corporations have larger level numbers; a level "N" corporation is directly held by the earliest preceding corporation with level "N-1"

INV indicates an owner of the enterprise parent

Comment Column (C):

A indicates that control has been assigned for reasons other than ownership of voting rights

D indicates the corporation is not controlled by this enterprise

R indicates that the corporation has already been listed within this enterprise, but it has more than one holding company. The companies that are in turn held are not also shown again

AD indicates that control has been assigned to a different enterprise

AR indicates that control has been assigned to this enterprise, and it is a repeated listing

RÉPERTOIRE DES ABRÉVIATIONS

CTL désigne le pays de contrôle

CTIC désigne la classification canadienne type des industries pour compagnies et entreprises

RES désigne le pays de résidence ou la province où est situé le siège social au Canada, si on la connaît

% représente le pourcentage des droits de vote détenus, généralement par une société qui précède la société étudiée (voir NIV); toutefois, dans le cas des sociétés suivies de "INV:" (voir ci-dessous), le pourcentage in-dique la proportion des droits de vote de la société mère détenus par ses filiales

C désigne un commentaire au sujet du type de lien de parenté

NIV indique le niveau du lien de parenté; on donne le niveau "01" aux entreprises mères, le niveau "02" aux sociétés détenues directement, et des numéros plus élevés aux sociétés détenues indirectement; une société de niveau "N" est détenue par la société de niveau "N-1" qui la précède immédiatement

INV: désigne un propriétaire de la société mère

Colonne des commentaires (C):

A indique que le contrôle a été attribué en vertu d'autres critères que la propriété des droits de vote

D indique que la société n'est pas contrôlée par cette entreprise

R indique que la société est déjà comprise dans la liste de cette entreprise, mais qu'elle a plus d'une société actionnaire. Les sociétés qui sont à leur tour détenues ne figurent qu'une seule fois

AD indique que le contrôle a été attribué à une entreprise différente

AR indique que le contrôle a été attribué à cette entreprise, qui figure ainsi pour la deuxième fois
